DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1-9,21-22 are rejected under 35 U.S.C. 102(e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Chou'905.

See Chou'905, abstract, figures, Summary of the Invention, column 3, lines 35-67, column 4, lines 1-6, lines 26-67. The examiner submits that the Chou'905 teaches the claimed invention. In any event, it would have been obvious to one having ordinary skill in the art to modify the

Chou'905 article so it does not expose the substrate. Such modification would be considered routine in the art and adding only a different variant to the Chou'905 invention

The amendment and remarks filled by applicants in their last response have been fully considered. Claims 1-9, however, remain unpatentable.

Applicants arguments and amendments have been persuasive regarding claims 23-30.

Claims 23-30 have been allowed.
